Our Team
Inter woven practices of each discipline that strengthens the individuals ultimate goal of healing and wellness.

Braiding services of care is to ensure the participant has support, access to resources, and connection with others.
Operational Tenants during your team meeting

- Each person has an opportunity to speak during the team meeting
- Discussions for incentives or sanctions
- Voting process
- Trust
- Confidentiality
- Open to change positions
Examples of braided services coming together to support recovery, well-being and connection

- Case Manager: supervised visitation for families involved in child protective matters
- Police department: weekend and holiday check-ins, welfare checks, observed urinary screenings
- Housing: access to emergency funding
- MAT Program: continuum of care for participants incarcerated
- DV/SA: collaboration with the court to host a 6 week shawl making workshop
- Nutrition: cooking classes and how to read labels
- Health Department: recovery transportation
- Elders: story telling, dream catcher making
- Education: help with student aid, waiver funding
4 Fundamental Tenants

What we have found through this work that these 4 fundamental tenants are:

Which leads to:

Alienation drives addiction.

Criminal behavior & substance use is not the problem, the problem is unresolved trauma.

Behavior is changed using positive reinforcement.

Commitment v. Compliance.
Tribal Key Components

In 1997 these 10 Key Components were developed by NADCP. In 2003 TLPI modified those components to meet the needs of tribal communities.

**Tribal Key Components**

In 1997 these 10 Key Components were developed by NADCP. In 2003 TLPI modified those components to meet the needs of tribal communities.

1. Judicial Interaction
2. Monitoring & Evaluation
3. Continuing Interdisciplinary & Community Education
4. Team Interaction
At Penobscot, our phases are our medicines. Tobacco, Cedar, Sage and Sweetgrass.
What happens after commencement?

- Bonds to the team and peers reduce due to lack of structured interactions
- Connections become strained between peers
- Breakdown in routine, structure and accountability
- Rise in likelihood of reoccurrence of substance use
After Care Strategies

- Face to face contact with case manager at 1\textsuperscript{st} month after commencement, then at 2\textsuperscript{nd} month, 3\textsuperscript{rd} month, 6\textsuperscript{th} month and one year anniversary.

- Check in is scheduled for one hour to review current living situation, recovery efforts, any relapses, criminal or civil infractions, cultural and community engagements etc.

- Referrals can be placed and followed up on.

- Continued engagement with team members and participants, cultural activities, and family nights.
